Chicken breast served over quinoa, spinach, mushroom medley and basil cream sauce

Wisconsin Beef Melt 10

Slow-cooked, dry aged, grass fed beef with red wine sauce, white cheddar and Monterey Jack cheese served on a grilled roll

A MATTER OF TASTE!

Greetings to all!

Below is a list of some of the things we do here at the Club. I think it all comes down to quality. Sometimes you can taste it, such as freshly flown in seafood or just picked locally grown produce. Other times you can't, such as Trans fat free foods. Regardless, I believe the food served here at the Club, "your Club", is the best quality in the area.

Local, sustainably grown food – last year 35% or sixty-five thousand dollars of our food budget went to buying food straight from local farmers. Not only do I think the flavor is superior, I think it is important to support local farms. I like to know where and how our food is grown.

Trans fat free oils – This is the eighth year we have used trans fat free frying oil. As a chef who feeds people, I feel some responsibility in researching, purchasing and using healthy ingredients. This is the fifth year we are using Trans fat free oil in all other cooking, such as house made salad dressing.

*****Meats** – Antibiotic and growth hormone free, pastured or free range, chicken and eggs, burgers. For a complete listing of our farms at www.wisconsinlocalfood.com.

This is a partial list of some of the things we do at the Club. Some of the things you can taste; others maybe not. People all over this country are starting to take a second look at food, especially locally and sustainably grown. Whether it's what they eat or what they feed to their children, people want fresh, tasty and healthy food. I look at the Club as the members' second home. I try to balance creativity with using the best nutritious and quality food I can. If you have any specific concerns, please give me a call.
